

“ It still plays out in my head...
WHAT IF? ”

WHEN USING A LADDER MAKE SAFETY MATTER

It could have been fatal when Mick, a retired tradesperson, fell fracturing his ribs and vertebrae. More than a year after the accident, Mick still can't do the things he used to do. He has trouble lifting items and still suffers pain.

Stop and think *before you use a ladder.*

Watch Mick and other people talk about the impact of their falls and recovery at www.productsafety.gov.au/laddersafety matters
