

Product Safety Recall

Do you own this product?

Electric Vehicles Oz (EVO) - Electric Quad Bike ATV008E

An electric quad bike all-terrain vehicle with 1500W 60V shaft drive motor.

Model ATV008E.

Dates sold: 22 September 2022 – 18 March 2023

Why the product is recalled: The product does not comply with [the mandatory safety standard for quad bikes](#). The product does not have:

- The lateral roll stability tag proof to record the minimum angle that the quad bike tipped sideways on to two wheels during testing.
- A permanent rollover warning label attached to inform consumers about product risks.
- A compliant operator protection device (OPD).

Hazard: Risk of serious injury or death to vehicle occupants and bystanders if the vehicle tips, rolls over, or if no compliant operator protection device is fitted.

1. Consumers should stop using the affected products immediately.
2. Consumers should contact Electric Vehicles Oz to arrange product return for a full refund.
