

Product Safety Recall

Do you own this product?

TOMY Australia

Dates sold: 01/09/2012 - 31/12/2015

Why the product is recalled: The bolts used to secure the seat can become loose and allow the seat to detach from the pedestal base.

Hazard: There is a risk of serious injury to young children if the seat detaches and falls from the base.

This defect has occurred and caused injuries overseas.

1. Consumers should stop using the highchair immediately.
2. Consumers should contact TOMY for a free repair kit. Consumers will receive a set of bolts and split and flat washers to repair the highchair.

Ask our staff to find out more about the recall.
