

# Product Safety Recall

3M™ Cubitron™ II Roloc™ Durable Edge Discs 984F 36+ TR 3IN  
3M™ Cubitron™ II Roloc™ Durable Edge Discs 984F 60+ TR 3IN  
3M™ Cubitron™ II Roloc™ Durable Edge Discs 984F 80+ TR 3IN

**Defect:** 3M Abrasives Systems Division has recently identified potential safety concerns with the 3M™ Cubitron™ II Roloc™ Durable Edge Discs 984F listed due to the Roloc™ plastic button connection, and is issuing a Stop Use and Recall Notice regarding affected products. Affected products were sold between Oct 2018 to Aug 2019.

**Hazard:** There is a potential safety risk of the abrasive disc detaching from the Roloc™ connection. Use of affected products may cause health and safety concerns, including injury.

**What to do:** Immediately stop using and quarantine affected products. Contact your 3M distributor whom you purchase the products from.

**Contact details:** Please contact your 3M distributor.
